

READY 8S

Submersible contractor trash pump

This small, portable submersible offers high performance and value. The motor, shaft and hydraulic components incorporate technology from a manufacturer with over 50 years of proven submersible pump design and manufacturing experience.

- Constructed of corrosion and wear resistant materials with a pH range of 3 to 9 for extended life.
- Up to 40% lighter weight than similar competitive models.
- Full factory one year parts and labor warranty.
- CSA approved to UL Standard for Safety #778.
- Can handle solids up to 1 1/2".

Check these value packed features:

- A** Easy to replace power cord with molded 15 amps plug.
- B** Internal control with overload and temperature protection.

- C** Non-corroding, stainless steel motor housing.
- D** Stainless steel shaft.
- E** Heavy-duty class F insulated motor with shrink-fit design, keeps motor cool – even under snore or partial submergence conditions. Entire motor operates in air rather than oil, reducing motor drag, while eliminating possibility of environmental contamination.
- F** Two mechanically independent rotating seal sets with lubrication chamber for double leakage protection and abrasion resistant silicon carbide outer mechanical seal faces for long life.
- G** 2-inch threaded hose connection.
- H** Smooth polyurethane impeller, vortex type.
- I** Polyurethane pump housing.

Submersible contractor trash pump

Technical Data

Model number:	2008.280
Motor rating:	1.1 HP @ 3360 RPM
Voltage (1 \emptyset):	115V 230V
Full load amps:	9.8A 4.8A
Pump dimensions:	11" W, 20" H
Weight (lbs.):	35
Discharge conn:	2" – 1 $\frac{1}{2}$ " NPSM
Power cable:	50 ft. AWG 16

Optional Accessories

- Piggy-back level switch for automatic operation or built-in level switch.
